

Aditi Singh

Senior Product Designer · Highspot

aditisingh.design@gmail.com · linkedin.com/in/aditising · aditisingh.ca (pw: **seeproject**)

Product designer with 6+ years of experience in B2B SaaS. I led design at Highspot for zero-to-one products, enterprise search, and an analytics platform that scaled across 8+ feature teams.

EXPERIENCE

Senior UX Designer · Highspot

2022 – Present | Canada (Remote)

- Currently leading design for the Go-to-Market Agent, a specialized AI agent that surfaces data-driven GTM insights across rep activity, content performance, and revenue outcomes.
- Designed Initiatives from 0 to 1, a GTM oversight product giving sales leaders visibility into rep activity, content usage, and revenue correlation, shipped to GA and positioned as a key differentiator against Seismic.
- Led end-to-end design for Highspot's analytics platform, defining the information architecture, interaction patterns, and dashboard systems used by enterprise sales teams across reporting, scorecards, and activity tracking.
- Redesigned the core search experience to support scoped, collection-based search, reducing time-to-content for reps in large organizations navigating high-volume content libraries.
- Mentored junior designers and established reusable design patterns across analytics, search, and governance, including a scorecard framework adopted by multiple teams without ongoing design involvement.

UX Designer · Guidewire Software

Jan 2022 – Present | Canada (Remote)

- Translated complex insurance policy workflows into accessible experiences for professional users with specialized domain knowledge.
- Led the design for single sign-on to unify and streamline the sign-in experience across all Guidewire products.

UX Designer · Mitel

Sept 2019 – Dec 2021 | Ottawa, Canada

- Led design for video conferencing across web, mobile, and meeting room surfaces — from discovery through delivery.
- Designed the device management console for support staff handling complex administrative workflows.

Research Assistant · IIT Guwahati

Sept 2015 – Apr 2017 | India

- Designed and conducted usability testing for zooming interactions on flexible display devices — contributing to 4 peer-reviewed HCI publications.

Architect · Anagram Architects

May 2012 – Jun 2015 | New Delhi, India

- Led concept design, technical drawing, and on-site coordination for 10+ projects — work recognized in Architizer, Archdaily, and Designboom.

EDUCATION

MASc, Human-Computer Interaction

Carleton University, Canada · 2017 – 2019

Bachelor of Architecture

Birla Institute of Technology, India · 2007 – 2011

SKILLS & TOOLS

Design & Research: User research, Information architecture, Interaction design, Visual design, Prototyping, Usability testing, Accessibility, Design systems, Qualitative & quantitative analysis

Tools: Figma, Cursor, HTML/CSS

NOTABLES

Published 6 research papers in peer-reviewed HCI conferences. Google Scholar profile

3rd place, 3-Minute Thesis competition, Carleton University. Pitch video

Architecture work recognized in Architizer, Archdaily, and Designboom.
